GLADNESS OF NATURE

Is this a time to be gloomy or sad,
When our mother Nature laugh around;
When even the deep blue heavens look glad,
And gladness breathes from the blossoming ground?
—William Cullen Bryant.

English teacher: "There are four requisites to a good short story: brevity, reference to religion, association with royalty, and an illustration of modesty. I will give you 30 minutes to write a short story, remembering what I have told you.

In 10 minutes Sandy was finished and was told to read it to the class. Sandy read: "My Gawd, said the Countess, take your hand off my knee."

It takes

Skill and Experience!

JUST as in Forestry and Logging, it takes Skill and Experience to make NONPAREIL plates. We deem it a great honor that the 1941 Forester Staff has recognized this in again selecting us as their engraver.

WHO PLANTS A TREE

Give fools their gold, and knaves their power;
Let fortune's bubbles rise and fall;
Who sows a field, or trains a flower,
Or plants a tree, is more than all.

—John Greenleaf Whittier.

IN NATURE'S WILDERNESS

Stranger, if thou hast learned a truth which needs
No school of long experience, that the world
Is full of guilt and misery, and hast seen
Enough of all its sorrows, crimes and cares,
To tire three of it, enter this wild wood
And view the haunts of Nature.

—William Cullen Bryant.

In Forestry, greatest net return results from co-ordination of dominant land use with timber management, game management, grazing and recreation . . .

Likewise, in our school life, the co-ordination of technical study, physical relaxation and social recreation through the Memorial Union, Our College Club, are all important.

Forestry With Practice

FORESTRY INSTRUCTION at Iowa State College is thoroughly in keeping with the time-tested motto, "Science with Practice." The work in the classroom is well-integrated with work in the field.

FORESTRY WITH PRACTICE takes these forms at Iowa State:

Practical experience in the cooperative state and federal forest nursery south of Ames.

Opportunity to observe forest management plans employed in state forest areas in the vicinity of Ames.

Two summer camps. An 8-week camp for forestry freshmen and a 6-week optional camp for juniors and seniors.

A 5-year course which permits students to supplement the regular forestry work for specialization in Forestry and Conservation, Forest Utilization, Forestry and Range Management, and Forestry and Wild Life Management.

Opportunity is given graduates of this or other accredited forestry schools to pursue work for a master of science degree in the fields of forest management, grazing management, or forest utilization.

Inquiries regarding Forestry courses may be addressed to the Forestry Department or the Registrar.
